## Independent Auditors' Report on Compliance With Requirements That Could Have A Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

The Board of Regents
The University of Alaska:

#### **Compliance**

We have audited the University of Alaska's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011. The University of Alaska's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the University of Alaska's management. Our responsibility is to express an opinion on the University of Alaska's compliance based on our audit.

over compliance. Accordingly, we do not express an opinion on the effectiveness of the University of Alaska's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

#### **Schedule of Expenditures of Federal Awards**

We have audited the basic financial statements of the University of Alaska and its discretely presented component unit as of and for the year ended June 30, 2011, and have issued our report thereon dated October 19, 2011. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, the Board of Regents, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

December 7, 2011, except as to the paragraph relating to the schedule of expenditures of federal awards, which is as of October 19, 2011

#### (1) General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of the University of Alaska. The University of Alaska is a constitutionally created corporation and a component unit of the State of Alaska. Federal financial assistance received directly from federal agencies as well as federal financial assistance passed through other government agencies is included on the schedule.

#### (2) Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the economic resources measurement focus and accrual basis of accounting, which is described in note 1 to the University of Alaska's financial statements.

#### (3) Subrecipients

The University of Alaska passed through \$7,073,196 of federal awards to subrecipients for the year ended June 30, 2011. Expenditures incurred by the subrecipients are listed below by federal program. These amounts are included in the Schedule of Expenditures of Federal Awards.

| Federal Agency and Program  | CFDA#  | Expenditures |
|---|--------|--------------|
| Department of Agriculture   |        |              |

# Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Board of Regents
The University of Alaska:

We have audited the financial statements of the University of Alaska and its discretely presented component unit as of and for the year ended June 30, 2011, and have issued our report thereon dated October 19, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### **Internal Control over Financial Reporting**

Management of the University of Alaska is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the University of Alaska's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University of Alaska's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University of Alaska's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial opporting on the consideration of internal control over financial opporting on the consideration of internal control over financial opporting on the consideration of internal control over financial opporting on the consideration of internal control over financial opporting on the consideration of internal control over financial opporting on the consideration of internal control over financial opporting on the consideration of internal control over financial opporting on the consideration of internal control over financial opporting on the consideration of internal control over financial opporting on the consideration of internal control over financial opporting on the consideration of internal control over financial opporting on the consideration of the considerati
